

MENGIONG – GAAT FMU Forest Timber Licence No. T/3401 (STIDC)

SUSTAINABLE FOREST MANAGEMENT POLICY

Piramide Intan Sdn. Bhd. is committed to sustainable forest management system for which we will implement the best forestry practices in social, environment and economic aspects as guided by the principles, criteria and indicators of MC&I SFM, relevant laws and policies of Malaysia and binding agreements to which Malaysia is a signatory.

Piramide Intan Sdn. Bhd.'s objective to implement sustainable forest management is to ensure continuous supply of timber, while providing employment opportunities and well-being of stakeholders especially the local communities. We and our contractors will take landscape approach to conserve and protect environmental and social values.

To achieve the above objectives, Piramide Intan Sdn. Bhd. shall:-

- **Conduct its forest management activities to comply with the relevant legislations, regulations, policies and requirements of Forest Management Certification Standard MC&I SFM under Malaysian Timber Certification Scheme (MTCS);**
- **To optimize the utilization of forest resources based on sustainable management and regulated yield control;**
- **Encourage and give opportunities for stakeholders participation;**
- **Confer with and provide opportunities for local communities participation;**
- **Recognize and respect the rights of the local communities as enshrined in relevant ordinances of Sarawak;**
- **Provide all our workers the opportunities to participate proactively on safeguarding and ensuing health and safety of our employees and their families, customers and public;**
- **Ensure that workers and contractors have sufficient information, skills, training and resources to implement this policy;**
- **Honour all international agreements and conventions, where appropriate, to which Malaysia is a signatory;**
- **Undertake and support research so that the operational practices are underpinned by sound science;**
- **Regularly monitor, audit, review and make the reports available to the public;**
- **To carry out the conservation of forest and protection of environment while carried out logging activities; and**
- **Communicate this policy and make it publicly available.**
